Poshan Pakhwada 2023 (20th March to 3rd April 2023)

The United Nations General Assembly adopted a resolution declaring 2023 as the International Year of Millets, as proposed by India to the Food and Agriculture Organization. The primary goal of this initiative is to raise public awareness of health benefits of millets and suitability of cultivation of millets in harsh climatic conditions. Mission Saksham Anganwadi & Poshan 2.0 mandates supply of millets at least once a week Under Supplementary Nutrition Programme component and suitable integration of millet in THR and HCM in a palatable form.

In line with the declaration of International Year of Millets, Government has also hailed the importance of promoting millets or *Shree Anna*, both domestically and abroad, while presenting the first *AmritKaal*budget. Further, this also coincides with India's Presidency of the G20, which will further offer a platform for the promotion of millets.

MoWCD is taking up various steps to popularize adoption of Shree Anna or Millets, and the upcoming Poshan Pakhwada in March 2023 will be an appropriate platform to reach out to and sensitize communities on the nutritional benefits of millets.

For celebration of Poshan Pakhwada 2023 emphasis will be on following three themes:

1. Promotion and popularization of Shree Anna / Millets for nutritionalwellbeing

2. Celebration of Swasth Balak Spardha in all the States

3. Popularizing Saksham Anganwadis
